

Allen, James E. Jr.

P. Taylor, Henry T.

Henry J. Taylor / Confidential Report

TOTAL mystery surrounds a confidential report by U.S. Education Commissioner James E. Allen Jr. The inside report has been smoked out by Sen. John L. McClellan, D-Ark., chairman of the Senate Investigations Subcommittee. It's guideline approach, endorsed by Mr. Allen's own statements, is to give "little credence" to claims that outside

agitators start campus disorders, riots and anarchistic mayhem.

Significantly or not, Commissioner Allen failed to check the findings with the FBI. Moreover, he ignored all official testimony by our nation's urban-center police that connects such national militants as the Students for a Democratic Society, Black Panthers, etc., with campus violence.

They presented indisputable evidence, for example, that off-campus agitators were hired and paid to create college riots and even blow up autos and buildings identified with the Reserve Officer Training Corps in our universities.

...
HAS Mr. Allen ever heard of Eldridge Cleaver, Rap Brown or Stokely Carmichael on our campuses? Cleaver, now in Algiers attending a Pan-American cultural festival, has been conducting a guerrilla training school in Castro's Cuba for fugitive U.S. Black Panthers. He expects to be smuggled back to our country from Havana via Canada.

Or listen to Stokely Carmichael in Dar Es Salaam on visiting Cuba and North Vietnam: "I am going back to hell—the United States." And, once back, he headed straight for our campuses. This is news to Commissioner Allen?

The connection between such off-campus agitators and the government of Cuba, North Vietnam, Russia and Red China is documented beyond any conceivable doubt by the FBI. It is

even boasted about by many of these rioters themselves regarding disorders on more than 200 U.S. campuses.

...
ALL this organized mahem takes money. Has Mr. Allen never heard of the so-called International Union of Students based in Prague and financed by Moscow? Our Central Intelligence Agency has told the commissioner that behind scenes the IUS is organizing and financing student disorders in the United States, Europe, the Middle East and Latin America. In addition, it now runs African student terrorist training centers in Budapest and Warsaw and in Bernau and Bautzen, East Germany. Unknown to Mr. Allen?

Is Ralph Schoenman a new name to Mr. Allen? This student agitator directs the so-called Bertrand Russell Peace Foundation which contrived the mock trial of President Johnson in Stockholm. The Dublin police arrested Schoenman, and Britain banned him. Then when I was in Rome he was caught trying to reach Rome while the student riots were boiling there. And our Rome embassy told me, to its dismay, that Shoenman holds an American passport.

Berlin's Rudolf Dutschke ("Red Rudi") and France's equivalent Daniel Cohn-Bendit ("before you can build you must destroy") are the student co-ordinators with the Moscow controlled German Socialist Student Association.

Such militants are transporting large amounts of weapons from state to state. More than 200 youths have been shot in Chicago alone this year during 26 street gang killings. Another 100 youths have been shot in these actions in Philadelphia, Detroit and San Francisco within the past five months. Included are several youths that the FBI finds were marked for assassination because they were accused of giving information to the police or FBI.

Meanwhile, hundreds of students promoting campus disorders are receiving Federal scholarships from Mr. Allen's office or National Defense Student Loans for their tuition.

Commissioner Allen owes us an answer.
